

Pinacl Plus enables you to reduce the complexity of managing your IT environment in order to free up valuable IT resource that could be deployed in more strategic activities thus offering a cost saving.

Pinacl Plus takes your standard maintenance contract to the next level by utilising a Network Operating Centre (NOC) solution for advanced monitoring and remote support.

Pinacl Plus pro-active support is achieved by utilising the latest event management tools which enables your maintenance contract to benefit from:

- Power Management
- Cost Savings
- Real Time view of your IT environments
- Supporting your Business Critical Systems 24x7x365
- Single point of contact with our ITIL Service Desk
- Assistance with Capacity, Availability and Configuration Management
- Service performance reporting & trending
- Remote and onsite engineering assistance
- Network Design Recommendations
- Cost Savings
- Real Time view of your IT environments

POWER MANAGEMENT

The Issue

IT and Ventilation Cooling Industry contribute to 83% of energy consumption within commercial buildings (Source - UK Energy Efficiency Consumption Guide 19)

The Solution

Pinacl Plus enables you to reduce the carbon footprint of your organisation by advanced power management from a central NOC.

From here the consumption of your active network equipment is monitored and energy efficient initiatives put forward which can reduce your annual consumption which results in Large Cost Savings.
